## GIRL SCOUT CAMP—FOR EVERY GIRL!

We can't wait to welcome you to camp! As we know over the last year there has been so many changes to schedules, plans, and expectations. Here at GSGMS we have been changing along with each of you throughout 2020. We are ready to face whatever challenges the summer holds and we can't wait to offer summer camp to each of our campers. Whether you and your Girl Scout are just beginning to explore all that GSGMS has to offer, or you're practically an expert when it comes to the great outdoors, you know about the lifechanging, memory-making awesomeness that is camp.

When your girl attends a Girl Scout camp, she will make new friends and find leadership opportunities based on the Girl Scout mission of building girls of courage, confidence, and character, who make the world a better place. Our camps provide a safe place for your girl to try new things and build her confidence guided by high-quality staff and volunteers. Girl Scouts' dedication to progression in outdoor programming means that your girl will practice age-appropriate skills and gain the experience she needs to feel confident when taking the next step in her outdoor journey. No matter what your girl's level of experience, comfort or knowledge is now, we invite her to join us! From resident camps to troop camp, leadership programs, additional outdoor opportunities and mom and me camps, Girl Scout camp has something for every girl!

# Health Information

## Summer Camp COVID-19 Strategies & Updates

The camp team at GSGMS has been working hard to figure out how we can safely open our camps for summer 2021. We've all heard the phrase "evolving situation" during this time and camp will need to use a phrase like that as well, because while we have put together the safety strategies and guidelines below, we will also be keeping up to date with any additional and evolving changes that are announced by our health experts and advisors, including the Center for Disease Control (CDC), national, state, and local rules and regulations. This is not an all-inclusive listing, as that list would be too long for this guide!

### Mask Use

Masks must be worn whenever travelling through camp or in an indoor space if social distancing is not possible. Masks may be taken off when outdoors and appropriately socially distanced, when eating or drinking, and during aquatic activities. Of course, if a camper wishes to keep her mask on at times when she is permitted to take her mask off, she is welcome to do so. Masks will be worn at all times during off property trips, where others are present, and on all methods of transportation.

### Health Paperwork and Procedures

Parents will be expected to sign a Covid Waiver Form before their child can be checked into camp. All campers will be required to go through a daily temperature and symptom screening.

**Resident Camp** – All resident campers are advised to complete a temperature and symptom screening for 14 days prior to attending camp.

### Cleaning Protocols

Each unit will have dedicated cleaning supplies. High touch surfaces will be cleaned regularly throughout the day. Increased cleaning of activity equipment will be done per recommended guidelines.

### Handwashing Stations

Handwashing and/or sanitizing stations will be available throughout camp. Time will be built into each schedule for designated handwashing.

### Food and Meal Procedures

Each unit will have a designated table for the duration of their session. Meals may be served at staggered times to reduce cross unit interaction and will be served by designated staff. Alternative options will be available at each meal, for example, cereal at breakfast, or salad at lunch or dinner. Please note any dietary restrictions on your application form.

### Drop Off Procedures

Contact-less temperature screening will take place for all campers upon arrival. If a temperature is 100.4° F or higher, that camper will not be permitted to stay at camp and

will need to follow return to camp policies. Masks must be worn properly, fully covering the mouth and nose, by all parties upon entering camp.

**Resident Camp** - Upon arrival, each car will be given a COVID-19 symptom checker sign off for all occupants of the vehicle. It is recommended that only one family member drop off the camper. All paperwork and Trading Post money should be submitted electronically ahead of time, however the Trading Post will still be open for live sales at check-in. After check-in, families will say their good-byes at the main building and campers will join their units.

**Troop Camp** – Drop off times will be staggered by troop number. You will be informed of your time by email prior to your arrival date. Upon arrival, each car will be given a COVID-19 symptom checker sign off for all occupants of the vehicle. All paperwork and Trading Post money should be submitted electronically ahead of time.

### Pick Up Procedures

Masks must be worn properly, fully covering the mouth and nose, by all parties upon entering camp. Upon arrival, each car will be given a COVID-19 symptom checker sign off for all occupants of the vehicle. It is recommended that only one family member pick up the camper. The camper will be brought to the car and the parent will sign them out. Any crafts, Trading Post monies, etc. will be brought with the girl. There will be no closing ceremonies or dinner served on Friday.

### Housing

**Platform Tents** – Girls will sleep up to four in a tent in a head-to-toe position.

**Cabins/Lodges** – Campers will sleep in a head-to-toe position. Cabin capacity is at 50%.

### Trips

All campers and staff must wear masks at all times on buses and vans used for camp trips.

### Return to Camp Policy

If a camper shows symptoms consistent with COVID-19, she will be sent home pending the results of a COVID-19 test. Camper's families are responsible for obtaining a COVID-19 test for their camper. A camper who tests negative for COVID-19 may return to camp after being symptom and fever free for 24-hours, without fever reducing medication. Staff showing symptoms will be isolated from the general camp population and have the same requirements as campers for return.

### Documentation

GSGMS uses CampDoc.com, a secure, user-friendly, web-based health record system to manage camper health forms and documents needed for camp. See the Camper Confirmation Packet for information about health forms and information needed at camp.

Families will receive an email from CampDoc.com with information about how to start your account and complete your camper's health information. Use the link in the email to set a password for your CampDoc.com account, and once within your secure account, follow the instructions to complete the health history and emergency contact information for your camper and upload health exam and immunization records.

Once you set up your family account, you can return any time before camp begins to

make changes or update information. Each camp's Health Supervisor screens each camper's record, ensures confidentiality, shares pertinent health and safety information (allergies, health needs) with counselors, and keeps records of care given at camp. Your CampDoc account also lets you sign most waivers for specialty activities.
